

Orphan Sponsorship Program

Guy and I have a passion for the cause of orphans around the world. We adopted our daughter from China nine years ago not knowing she was literally clinging to life. She has since received the much needed treatment and is now a bubbly, happy and healthy kid!

To our delight, we teamed up with Children's Hope International in the spring of 2008 to help give hope to orphans through their Orphan Sponsorship program. We do our part by sharing our story and that of millions of orphans worldwide, and hope to raise awareness for their needs to be met. CHI provides basic needs like health care, education, food, and shelter by pairing orphans with families through a monthly sponsorship of US \$32.00. They are bringing hope to the hopeless and we couldn't be more excited to be doing it with them.

If your church or organization would like us to provide a free worship concert and Orphan Awareness program, or you are interested in more information, please contact me at kiersten@kierstenvenezia.com. You can learn more about CHI's Orphan Sponsorship Program by going to www.helpanorphan.org.
