

## Suzanne Petersen "Our Street"

The highly accomplished & respected Melbourne musician Suzanne Petersen has released a new album, Our Street.

It has been three years since her previous album, "So Many Nights", & it has been worth the wait!

This is an album of loss & pain (it is dedicated to her late husband), but it not a depressing listen. It is a beautifully put together album, played by musicians at the top of their game. These are musicians who recognize the value of the notes not played.

There's not a bad note on this album, I highly recommend you hear it. You will be richly rewarded!
