

## Portrait

As I laid awake last night  
Somethin' troublin' on my mind

You have never been a part of me  
Only saw your chance to leave

You suffer in the life you chose  
Father, son, unholy ghost

You have never been a part of me  
Only saw your chance to leave

Portrait of ya  
Portrait of ya  
It's not so lovely in the house you're haunting

I'll remind you of the day  
You were laughin' at my pain

You have never been a part of me  
Only saw your chance to leave

You refuse to compromise  
Acted like everything's alright

You have never been a part of me  
Only saw your chance to leave

I knew you better then  
I knew you better then  
I knew you better then  
I knew you better then (you knew me)
