

## Light Me Up

i'm sitting here with a dry cigarette, signing  
who'll light me up?  
who'll light me up?  
i don't smoke and i don't forget, singing  
who'll light me up?  
who'll light me up?

i've got a girl, she's decent to me  
i've got a girl, she's decent, you'll see  
she'll come around here with a flame for me  
singing, ooh i'll light you up  
ooh she'll light me up

the night was dead, still you made the scene, singing  
who'll light me up?  
who'll light me up?  
time was ticking like it was a dream  
singing, ooh light me up.  
who'll light me up?

i've got this girl, she's decent to me  
i've got this girl, she's decent, you'll see  
she'll come around here with a flame for me, singing  
ooh i'll light you up  
ooh she'll light me up

had you in my plain sight  
you know we think alike  
i'll show up at your door  
my friend will never, ever, ever, ever know
