

## Oh, Samantha

on a ray of sun all the way from california  
to a better life, better life

had to come undone, lost in middle america  
to a better life, better life

there i met a girl, colors turned from grey to green and gold  
in a better light, better light

she moved in next door, i wrote her a song  
in a better light, better light

oh, samantha, won't you be my baby?  
oh, samantha, won't you be mine?

we can fly away if you say you wanna leave  
to better life, better life

it's a simple thing, to do as you please  
in a better life, better life

oh, samantha, won't you be my baby?  
oh, samantha, won't you be mine?

now we're almost done, i only need a little longer  
just a little time, little time

you don't have to leave, as long as we have each other  
just a little time, little time

oh, samantha, won't you be my baby?  
oh, samantha, won't you be mine?  
oh, samantha, won't you be my baby?  
oh, samantha, won't you be mine?
