

Strangers When We Speak

can i ask your name? if i may be so bold
can i take your hand? i'm hangin' on like a common cold
but we'll never freeze
it's impossible

now that you have your hold on me
your warmth will never leave
but we're strangers when we speak

can you live this way? tryin' to be immune
it's all stayin' the same
does it mean that much to you?
if you just believe, love comes shining through

now that you have your hold on me
your warmth will never leave
but we're strangers when we speak
we're strangers when we speak
we're strangers when we speak

anything that could've happened
would've happened for a reason
any time your fast asleep
any time your fast asleep

we're strangers when we speak
we're strangers when we speak
