

## An Afterthought

i know ya have trouble with saying that you love me  
don't worry, i have the same trouble with you  
thoughts of mine, incomplete again

i suppose it's all i knew

i know the signs when you're layin' beside me  
photographs, rules applied on and on  
missing verse for the everlasting

all those signs were all i knew  
all those sighs were all i knew

now i can't and i won't  
ever know if you ever were  
something good  
i've gone so far with this heart  
it only gets harder to look

an afterthought for the everlasting  
an afterthought for the everlasting

since you left i've been waking at twilight  
i fall asleep at the break of dawn  
i suppose i'm asleep again

after all it's all i knew  
after all you're all i knew
