

We'll Never Know

I.o.n.g

seems like forever but it'll never be

I.o.n.g

i turned around and i set it free

say if you want to go down that road
a place we've never been, so i've been told
we'll never know

I.o.n.g

the way i feel when you talk to me

I.o.n.g

i hold my breath in expectancy

say if you want to go down that road
a place we've never been, so i've been told
we'll never know

when you're knocking at my bedroom door
don't be surprised if i say some more
i love you, kimberly
we'll be together if it's meant to be
I.o.n.g
fell through your eyes on the count of three

say if you want to go down that road
a place we've never been, so i've been told
we'll never know
