

Hold On

What if all I said
What if all I said to you was wrong?
Would you ever speak to me again?
A light that shines for us has gone
Will you ever speak to me again?

World on it's head
World on it's head has turned away
Will it ever spin our way again?
Too scared to go too scared to stay
Will it ever spin our way again?

Hold on darlin'
You will never be
You will never be
Lost without me

We don't wanna talk
We don't wanna talk anymore
Afraid there's nothin' left to say
'Till you come walkin' through my door
Afraid there's nothin' left to say

Looked in your eyes
Looked in your eyes and saw the love
It's been hidin' in your eyes
Enough to break through these times
Love's been hidin' in your eyes

Hold on darlin'
You will never be
You will never be
Lost without me

Hold on darlin'
You will never be
You will never be
Lost without me
