

I'm Not Dead

I'm not dead but only you can see
When you said I'm only half asleep
And you knew just what to do

I'm not dead, I've gone through this before
When I said I'm walkin' out that door
And you knew just what to do

Saving our love from yesterday
We're saving our love from yesterday

'cause I'm not dead but only you can tell
when you said I'm coming back from hell
and you knew just what to do

Saving our love from yesterday
We're saving our love from yesterday

'cause I'm not dead

Saving our love from yesterday
We're saving our love from yesterday

'cause I'm not dead
