

Time Isn't Part of Anything

I'm not wasting my time
I'm finding my stride
I know where I'm at
I'm coming back

If you leave me be
I'll be all that you need
Through red or through back
I'm coming back

Time doesn't hold us
Time doesn't feel that you need to leave
Time isn't part of anything

It might seem like I'm right
'cause I'm wrong all the time
only this could mean that
I'm coming back

Almost came to the end
Like a friend
Who needs them
Disappeared in the act

Time doesn't hold us
Time doesn't feel that you need to leave
Time isn't part of anything

I'm losing time
I'm underground
So late in life
For us to be found out
Found out

Time doesn't hold us
Time doesn't feel that you need to leave
Time isn't part of anything
