

## The Morning Sky

If you follow me over  
The pale blue morning sky  
You can find me, I'll be right here  
Turning darkness back to light

And I don't know why  
Memories of my life  
I see forgotten faces  
From a distant heart

There's a safe house over the hillside  
Where the wolves can't get inside  
Won't you join me, I'll be right here  
Just to listen as we hide

And I don't know why  
Memories of my life  
I see forgotten faces  
From a distant heart  
From a distant heart  
From a distant heart

Don't know why

I don't know why

Yes I know you  
Never know you  
Now I know you  
So much more
