

Found Out

all good things come to an end
but you know, some things begin again

i'll tell you what i found out

if all i say is true
i'll bet you nothing but a point of view

i'll tell you what i found out

all bets are off for me
c'mon... chemistry

why don't you look inside, my son
what you need is never what you want

i'll tell you what i found out

we can look for the time to steal
you and me, baby, it's something real

i'll tell you what i found out

all bets are off for me
c'mon... chemistry

gonna tell you what i found out
gonna love you with a new sound
