

## Hideaway

After everyone's come and gone  
You know we're the only ones  
You let me just tag along  
You motion  
so I follow

when you're here with me  
I'm thrown right in the deep  
So much I can barely breathe  
You smile  
I feel it

Ooh ooh, hideaway, hideaway  
Ooh ooh, hideaway, hideaway

The trees are all quiet now  
The wind makes the softest sound  
Where we go we won't be found  
We're hidin'  
Under moonlight

We come upon a hidden stream  
You give your hand to me  
You motion the count of three  
We jump  
Together

Ooh ooh, hideaway, hideaway  
Ooh ooh, hideaway, hideaway

I'm fallin' down  
I'm fallin'  
I'm fallin' down  
I'm fallin' for you

The water holds us high  
As we float side by side  
We found a new place to hide  
We travel  
Undercover

Ooh ooh, hideaway, hideaway  
Ooh ooh, hideaway, hideaway  
Ooh ooh, hideaway, hideaway  
Ooh ooh, hideaway, hideaway
