

## NEVER ENOUGH

if it's never enough  
you can take my hand  
a plastic heart and a one night stand  
she knows you're ashamed so keep your cool  
but it's never enough for me and you

if it's never enough  
tied in a knot  
you're almost afraid to be in love  
so play it safe  
the cold hard truth  
but it's never enough for me and you

i've got a lover who looks the other way  
all the emotion  
it's pullin', it's pullin', it's pullin', her away

if it's never enough  
to be taggin' along  
you'd rather pretend than be on your own  
i'm not gonna wait to be your fool  
but it's never enough for me and you

i've got a lover who looks the other way  
all the emotion  
it's pullin', it's pullin', it's pullin', her away  
i've got a lover who looks the other way  
all the emotion  
it's pullin', it's pullin', it's pullin'  
her away
