

## Come Away

A condition has risen  
And for now it's somethin' we can't repair  
We should work with what we're given  
And ya know we're both a little scared

We both know somethin' better  
Asking us to read 'tween the lines  
And I know that you doubt it  
Let me take you back to the light

Turn your pain off  
Turn your pain off  
Come away  
Come away

Turn your pain off  
Turn your pain off  
Come away  
Come away

Can I say that I need you?  
I can't wait to be held in your arms  
This time I'll try to appease you  
To reveal your true, your true charms

Turn your pain off  
Turn your pain off  
Come away  
Come away

Turn your pain off  
Turn your pain off  
Come away  
Come away

Turn your pain off  
Turn your pain off  
Come away  
Come away

(repeat, fade to end)
