

I'VE GOT YOUR TOUCH

move in closer baby
we've been teasin' each other all night
we kiss aggressively when we catch each other's eyes

now i've got your touch
i couldn't want it more
but you know it's not easy to have you only once
now i've got your touch

wish you were my girl, baby
you've got someone else back home
it feels like i'm fillin' in where the both of you left off

now i've got your touch
i couldn't want it more
but you know it's not easy to have you only once
now i've got your touch

the best laid plans will change with a traveling romance
i ask if you feel for me and you tell me that you can't
that you can't
that you can't
now i've got your touch

the next night i called on you
i was sleepless at your door
you pushed my advances away but you were happy to tease me
more

now i've got your touch
i couldn't want it more
but you know it's not easy to have you only once
now i've got your touch
i couldn't want it more
and you know it's not easy to have you only once
now i've got your touch
