

Lonely Light

I can breathe when I'm alone with you
Can't you see
Now I'm alone with you

Close your eyes
We can float tonight
Through the sky
On a lonely light

I can sing in a space for two
Sing with me
We can sing for two

Close your eyes
We can float tonight
Through the sky
On a lonely light

I am the one
The only one
In my head
In my head

Turn away if you came to hide
Only luck
Keeps you by my side

Close your eyes
We can float tonight
Through the sky
On a lonely light

Close your eyes
We can float tonight
Through the sky
On a lonely light
