

Wake up love

What has an end
Always comes back around
With another wind
My heart has never had a doubt

And you surrounding everybody with your smile
That red on your lips
They are traffic lights
To stop this time
Where I am now...

**Painting with whisky all my thoughts
Washing away my bad luck
Packing with chains and sending it to the deeper space
Where it would stay or leave without a trace**

I don't wanna say
I don't wanna stay
And feel this again
Cover all this pain

And you surrounding everybody with your smile
That smile on your face
Is two thousand lights
Touching the sky
Where I am now...

**Painting with whisky all my thoughts
Washing away my bad luck
Packing with chains and sending it to the deeper space
Where it would stay or leave without a trace**

I don't know why I need you
I don't know why you leave
I don't know why I fear you
I don't know why I'm here...

Pre-Chorus 2

Chorus 1

**Show me you've never been in love
Show me you've never felt a thing
Show me a place or send it to the deeper sea
Where it would stay far away from me**

**Ah Wake up, wake up!
And wash away my bad luck
Show me a place where you can hold me, feel me,
Love me, give me something**
