

## Living Dreams

The nonsense wars  
The hot versus cold  
The Great Smog impact  
The Nuclear impact  
Atomic bombs  
"Mother of all bombs"  
Unconscious living.

The civil wars  
The hurling stones  
The influence impact  
The rising impact  
Unpleasant honks  
Unsighted fronts  
Unconscious living dreams.

**Can see the rainbow and feel the sunshine in the sky  
Can see the green and all the trees getting out of sight  
Can see the whales and save the Pandas in Shanghai  
Can see the nations have a name and I can even fly.**

Wait for a snowflake in July  
Can have a sushi or a margarita in Hawaii  
Wake up in London, lunch in Berlin, shop in Dubai  
Increase the number of your breast just for one night.

Things to entertain in your empty space  
Disgracing your grace  
Erasing the names will end all your shames  
Unconscious living dreams.

**Can see the rainbow and feel the sunshine in the sky  
Can see the green and all the trees getting out of sight  
Can see the whales and save the Pandas in Shanghai  
Can see the nations have a name and I can even fly.**

**Can see the people and all the oceans getting high  
Can see the grey and the ultraviolets in the skies  
Can see the planets, be on the Moon with the head in Mars  
Just wondering how it's gonna be in 2049.**

We're living in a mad world  
Fire burning killing trees

Partying in a moral world  
Buying status to set you free  
Now I can see,  
We are living dreams.

**Can see the rainbow and feel the sunshine in the sky  
Can see the green and all the trees getting out of sight  
Can see the whales and save the Pandas in Shanghai  
Can see the nations have a name and I can even fly.**

**Can see the people and all the oceans getting high  
Can see the grey and the ultraviolet in the skies  
Can see the planets, be on the Moon with the head in Mars  
Just wondering how it's gonna be in 2049.**
