The Players: The 10 Planets

Part One: The Lead Roles

The Sun

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Prince and Princess.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

Sun in Aries

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Aries gives your relationship a touch of romantic spontaneity. The two of you can display a tireless creative vitality. The keyword phrase for Aries in traditional astrology is "I am." What does this mean? You expect one another to respond quickly to your pleas for attention.

A desire for immediate gratification comes standard with this fiery sign. Neither of you need the other's permission to take action. Moving swiftly through life together is exhilarating. Getting instant results is something you expect.

Courage is a spark that gets lit in your being together. Take the initiative to conquer the circumstances that might come between you. Talk openly about your needs.

Your natural leadership qualities might find your relationship inspiring others to action. Seek a spirit of cooperation in dealing with conflict or adversity. Recognizing the territorial needs of each other will go far to establish harmony. Be brave in not giving into your individual and shared fears.

Acknowledge the strength of one another to find a sense of self. Do not run away from the natural intensity you awaken in one another. Give each other equal attention. Beware of short attention spans.

There is enough room in this relationship for your likenesses and differences. Let your competitive spirits take you to new heights.

Do you sometimes feel impatient with each other? This could be an area the two of you need to work on. Give yourselves a chance to catch up to one another during major changes. Give your partner advance warning before making a major decision.

Assertion is another key theme. You both need to feel free to express anger and to speak your mind--don't you? Denying anger could "make a mountain out of a mole hill." Carelessly invading each other's territory may produce resentment. A give-and-take attitude might help reduce stress and tension. Negotiate from the heart as well as the head.

Your creative vitality leads you to climb great heights together. But do look before you leap. Take the time to understand the inner motivation for your individual and joint actions.

Enjoy the spark of confidence you bring to each other. Make each other feel important, and you have a winning combination.

Sun in the Fifth House

It is easy to predict you can be true romantics in each other's eyes. Take ballroom dancing, travel to adventurous places and indulge in an extravagant meal at a fancy restaurant. Keep your life enriched by entertaining choices that allow for mutual enjoyment. Self-expression is a given in a big way here. You might find yourselves reciting lines from a Shakespearean play to each other. The clown in each of you doesn't need much encouragement. The two of you are filled with a creative spirit. Find outlets to satisfy this gift. Wear the roles that suit you. There are many.

Each of you hates to lose. Self-confidence is always near. People like to be around your partnership as it lifts their spirits.

Share the spotlight. Your alliance is a lot more fun when each of you is happy. Each of you likes to be adored by the other. Give each other breathing room from time to time. A bruised ego can result if either of you feel too ignored.

The two of you must have felt passionate about each other from the get go. Your communication is lively. There is a direct way of dealing with issues that might even startle your friends.

You are just plain lucky! Your business investments can be fruitful. Instincts for following the right financial hunches are indicated. Don't go overboard in trying to impress others. You both are more natural and content when operating on your own terms. Your shared will power makes things happen.

You are at your best when cheering each other onward to success. A smile, hug and words of encouragement are paths to endearment.

The Moon

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

Moon in Cancer

With your relationship lunarized through the sign Cancer, emotions run at high tide! You will get plenty of practice in adjusting to mood swings. Allowing each other to express opinions honestly balances emotional intensity. You can establish a wonderful sense of security together. There is unspoken warmth that you share that is evident to others. Your home is a retreat from the world and offers a place to unwind from stress. It is a true refuge in your eyes. Each of you needs to see that you can always find security here. You both need to know that your vision of family and closeness can be realized. You may prefer to live in a city or area that offers a sense of community.

You may not like people to know much about your relationship. There is a need for privacy. You expect each other to be able to keep a secret. You can probably read the unspoken language exhibited in each other's faces. Your intuition could lead you to be able to finish your partner's sentences.

There is the possibility of a reassuring closeness in your partnership. Honor each other's needs for space. Balancing dependency needs is good for your relating. You need to be able to experience your individual strengths as it enriches your togetherness.

Be sure to talk through differences. Why? It avoids emotional minefields. Keep the real issues within talking distance. Open communication keeps you feeling secure and acknowledged. This relationship draws out deep thoughts and moods. Do not panic during confrontations, and you will learn to work through problems. A positive stroke now and then never hurts.

Let your imaginations guide you to act from your clearest inner motivations. Enjoy building a life together that contains memories that will last a lifetime!

Moon in the Eighth House

There is a capacity to travel to the deepest recesses of each other's thoughts. The bond between you deepens quickly, as though it was already there. Believing in the good intentions of each other is needed. Don't betray this trust, and you can have a passionate love together.

You can wound each other's pride with sharp, precision-like negative comments. You can repair the damage just that fast with showing you are sorry. Forgiveness is a key ingredient in your partnership as it keeps leading you back to calmer ground. It doesn't take much for you to bring out emotional intensity in one another--does it? Don't fear getting angry at the behaviors you don't like. It is therapeutic and is it predictable that it will occur. It's better to express yourselves in the moment than let it erupt later like a hot volcano.

Loyalty is sacred in your eyes. You need to know you have an ocean of security in your being together. You are lovers, friends and allies. There is no better person to see you through the tough times and to celebrate the highs. Don't run away from the shadows you awaken from your partner's past. Your relationship flushes out everything that needs to be faced, whether it is a tendency to be jealous or manipulate. Your love for each other will be strong, if together for one month, or a lifetime. You naturally remind each other to appreciate the gift of the present.

Let your intuition guide you to find the harmony in your emotional depths. Help each other find the road to their greatest sense of personal power, and you have done much to stabilize your togetherness.

The Ascendant

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

Ascendant in Scorpio

People see the two of you as passionate and business-like or contemplative. You can display all three of these traits, depending on the circumstances. You can be charismatic when feeling extra confident. A need for privacy will sometimes find you a retreating couple. Financial sense is likely sharp. Negotiating skills can show you carrying yourselves in an articulate manner. The quiet intensity with which you project yourselves into the world could intrigue others. Prosperity is a product of working as a team. You can at times even take on the role of detectives or researchers.

The Part of Fortune

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

Part of Fortune in Aquarius

The future is a motivating force for you both. Without stimulating goals, your creative power travels in circles. You are an inventive combination. There are few dilemmas you can't think your way free from in life. The friends you cultivate are dear to you. It is the network of people that you know that activates your ideas. The two of you may border on the unconventional. Life will sometimes bring good fortune when you are in the midst of transition. The shock of sudden change may catapult you into the right places at the right time. Your creative power is driven by the intensity of your vision.

Part of Fortune in the Third House

Mental excitement makes life together filled with unpredictable learning experiences. You are a catalyst for taking in new information in one another's life. Life in the fast lane will sometimes be just what you need to get out of routines. Good fortune is attracted through considering multiple paths toward fulfilling your objectives. You each thrive on the freedom to change your minds in midstream. You can elevate your partner's perceptions beyond the borders of their normal seeing distance. You share a creative power that is original, youthful

and fun to witness.

Part Two: The Supporting Cast

Mercury

Are you curious about the way the two of you communicate? In this section are Mercury's sign and house placements, showing some of your favorite communication tendencies. Mercury is referred to as the winged messenger in mythology, a networker for the gods. This very mental heavenly body represents an important link between your minds. It shows how you interpret what the other is saying. Mercury is connected to Perception. Astrologers consider Mercury the ruler of the conscious mind.

Mercury in Aries

Your mental energies move fast and furious. Assertiveness is not a hidden tendency. Your perceptions can be sharp though your actions might not always be well timed. There is an impatience to make things happen immediately. The two of you like people able to get to the point fast! There may be a swift decisiveness exhibited.

You don't mince words when it comes to talking to each other. Your communication likely features a fast pace and is direct. One or both of you might sense that waiting too long to deal with a problem puts your nerves on edge. There is a desire to nip issues in the bud.

Putting your thoughts into action is an instinct. Try to reflect a little before embarking on major new challenges. It will be time saving to do so. You both need the individual freedom to express your leadership drives. An urge to satisfy your own unique curiosities about life is indicated. A perk in your being together is the stimulation of new thinking.

There will be times when you must just plain move through life spontaneously. It could be embarrassing to realize that with twenty-twenty hindsight you have the cart before the horse!

You need mental excitement to add spark to your partnership. New adventures keep your minds ready and alert.

Dull routines get you feeling down. You need to keep life interesting. Too many thoughts in the passing lane can lead to mental confusion. Slowing down the pace may be needed to keep you both on the same page. Listening does not come easy and will take practice.

Heated exchanges are bound to occur over sensitive topics. It's better when each of you gets a chance to talk; the exchange of insights and ideas deepens your connection.

Mercury in the Fourth House

Your minds are pulled to the depths of your innermost feelings. Sharing thoughts about home and family can be a regular event. Your perceptions have a way of getting each other to reveal your vulnerabilities. There is a radar-like intuitive way you can reach the deepest levels of your partner's mind. Mutual emotional support is a commodity you hope to receive from one another.

Communication may take a while to establish. Your emotions are way out in front of your ability to express yourselves in words. Intimacy is something you must trust. Don't force the closeness. It is more important that you both have enough time to process the effect you have on each other. You do make one another feel more secure about this relationship through talking.

The home is a subject you probably spend much time discussing. Keeping it organized helps. Your residence can be a busy place for meetings. You can get very involved in community activities. You need to live in a city or town that offers enough mental stimulation for each of you. Nervous tension is not welcome where you live. Both of you can be avid readers when alone. Your growing up years might be of interest to your partner.

Patience with each other's reasoning abilities is good to remember. Your problem-solving approaches are likely to travel on different highways. With practice you can learn how to work great together.

Hidden agendas! Don't make a habit of indulging in them. State your plans or goals as honestly as possible. Fatigue really fogs your mental objectivity. Deal with the major decisions when you are alert.

Encourage independent thinking and dependency will stay balanced. A feeling of joint decision-making is the way to your lover's heart.

Venus

Without Venus, life would be lonely and meaningless for all of us. The goddess of love guides our Social Awareness and search for Aesthetic Beauty. The Venus sign and house positions most directly point to your search for a sense of balance, peace, comfort, love and mutual admiration.

Venus in Aries

Your relationship is a Symbol of Action. The social instincts of your partnership are impulsive and daring. An eagerness to deal directly with others is often displayed. Your friends are likely to be bold in nature. Take charge types of people get your attention. Your bluntness will offend the weak of heart. You don't like to wait for opportunities to come. There is an impatience to get life to respond, ahead of schedule.

Your relationship probably formed quickly. A strong physical attraction could have gotten the ball rolling. You have a chemistry together that initiates the direct expressing of how you feel. Patience doesn't always come easy. It's okay to get angry. Be sure to talk major differences through to each of your satisfaction. Neither of you likes to carry around hurt feelings for too long.

You both have a great need to establish your own unique identity. It will not do to try to live your creativity through your partner. A cooperative effort in pursuing individual talents encourages intimacy. Give enough attention to each other and you will be adored.

Money and ownership are not taken lightly. Strong feelings are aroused by each. Your joint purchases can thrill you. Spending money freely is indicated. Be sure to save a little for a rainy day. Playing it safe might not occur to you. Starting bold new careers or business enterprises are

highly predictable. Others can see you as a competitive couple. Your assertiveness in trying to achieve greater wealth or ownership can be impressive.

Where are your greatest needs for balance? Somewhere in between a lack of cooperation and too much devotion to individual desires. How do you restore the peace or equilibrium? By compromising where you can. Work together in a spirit of cooperation and you feel closer. You are a passionate duo.

Venus in the Fourth House

The two of you can enjoy a special closeness. There is a need to really trust one another early on in your relationship. You respond very quickly to your partner when receiving emotional support. A feeling of being equals deepens your connection. There are times when the two of you will choose privacy over socializing. You could need this to recharge your energy. Your tendency is to be nurturing toward others. It may leave you exhausted if you don't get the solitude you need together. People probably rely on your strength a great deal.

You take ownership seriously; especially things that have sentimental memories embedded in them. It shows wisdom to respect what each other is attached to in life. Home is another area that is likely a key focus for you both and will challenge you to find compromises. It can easily become a source of harmony if discussed cooperatively. Your home could be a place others like to visit as it has a relaxed atmosphere. Peace in your private life is greatly valued. You may enjoy creating pretty landscapes.

The two of you can show patience in starting a new business or career. You have a way of helping each other tune into work ambitions. Working out of your home is possible. Each of your family roots can be a subject of interest. A special closeness with relatives is indicated. You could have friends that are more like part of your extended family. It can be hard to please others all of the time. This is a good point to remember.

You need to know you can count on one another when the chips are down. Being there for each other in the good and bad times deepens your commitment.

Mars

The ancients considered Mars the god of war. The warrior planet can translate into heated exchanges with each other. Mars arouses Passion in the form of sex, anger or a desire to forge ahead as a swash buckling couple. Mars is still the ruler of combat. It points to the primal competitive instincts embedded deep within each of us. In modern terms, this fiery red planet's sign and house placement are associated with assertion and acting on impulse.

Mars in Libra

The warrior in you has two natures. One is carefree, and the other is worried about how others will judge your rash impulses. The two of you can stop on a dime to first assess the possible impact of your actions. You like to know if a battle is worth fighting before launching an offensive. You prefer to look at situations from more than one angle before moving ahead. You can be assertive when you become convinced you are in the right. Negotiating with a spirit of fairness and compromise is what you expect. You don't like to argue with each other, but will

do so to defend a position.

You can be drawn to help friends and loved ones get through tough times. People probably find your insights comforting. Helping others make decisions might be a talent. There is a natural inclination to be mediators in helping individuals settle disputes.

You tend to bring out the extrovert in your partner. There is a natural outgoingness that takes you into various circles of friends and business associates. An active social life is stimulating. Dancing and dining out are fun ways to be together. You may have mutual tastes in food and the arts. There is a tendency to seek happiness in the same ways.

Mars in the Eleventh House

You both like to know you have the freedom to make choices spontaneously. Waiting for other people to make up their minds makes you nervous and even irritable. The war god shows you are a couple with a feisty drive to express yourselves. Your goals are sacred! Pay attention to the mutual and individual directions you want to explore. You feel lost without a sense of direction. The future is a space station beckoning to your sense of adventure and intrigue. You can help your partner find the courage to leap over limiting circumstances.

You like to stay near the forefront of your favorite subjects or fields of interest. Inventive people can enjoy being in your company and visa versa. Your minds work fast. You might have a tendency to not always listen to each other. Concentration in the present is not a natural inclination. It can get better with practice.

The two of you thrive on social connections. Group involvements can reflect your beliefs. You may, or may not like, each other's friends or business associates. Don't be too belligerent as it will lead to angry moments. Tolerance here is wise. You both can be forceful in getting your own way. Choose your battles carefully. Some are not worth winning.

You both are motivated when your thoughts touch down and test their chances for opening new doors. Being surprised by life excites you more than scheduling yourselves through a day-by-day planner. You are happiest when you are not looking back at yesterday, but more so when gazing into the horizons of tomorrow.

Jupiter

The largest planet in the sky is Jupiter. This happy-go-lucky cosmic giant is more than twice the size of all the other planets put together. Jupiter spins on its axis with great enthusiasm, doing this faster than any other planet. Jupiter's sign and house denote themes related to learning, optimism, travel, philosophical beliefs, luck and generosity. Inspiration that flows between two people can be traced to our good-natured friend in the sky.

Jupiter in Scorpio

You seek inspiration through a shared plumbing into the depths of your favorite subjects.

Even areas of interest your society has labeled with a no trespassing sign, are not off limits. The two of you don't scare easily when you want to know the real scoop about a situation. Secrets are not easily kept from each other. The blunt honesty in your tongues can send shock waves through each other, and the people you meet. Your words and beliefs have a lasting impact on others. You have little respect for hypocrisy.

The researchers in you lead your minds to master an area of interest. When your attention is captured, your concentration is intense. Psychology, metaphysics, and even the world economy can be regular topics of discussion.

Your dependable trust for one another can be profound. Friends and loved ones respect your ability to give sound advice. Your knowledge comes more from experience than a book. Be tolerant of the differences in your personal belief systems. Accepting opposing viewpoints only serves to deepen your connection. It will be difficult to really change each other's most cherished ideas!

Travel allows your two minds to process your individual and joint paths. The intensity with which you approach life together needs to be mixed with plain good-old-fashioned fun. A sense of happiness and expansive growth occur when you make your partner feel materially and psychologically secure. There is a desire to pursue the best life has to offer. There is a tendency to see the good in others. You both must watch out how generous you are when first meeting people. Your first impulse is to look for the best. Faith in one another can feel like it massages your confidence. Your relationship is not easy to classify--why try?

Satisfying your idealistic impulses is a great longing. A particular cause may attract you both. Artistic pursuits can be mutually meaningful. Service professions may express your compassion and desire to be needed. You probably enjoy much of the same types of entertainment.

Travel is a good way to become more positive about the past, present and future. You are two very sensitive people. Be sure that you don't do things for one another due to guilt. Talk straight on a regular basis.

You make good teachers. Your way of making others feel accepted gets them to want to learn. Capturing the imagination of the young and old is within your grasp. You make each other always feel young. It is the innocence with which you gaze at life that brings in new enriching experiences.

Saturn

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif

denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

Saturn in Libra

The clearer the commitment, the more balanced is your relationship. There is not much room for indecisiveness. The two of you can dance happily through life together when you sense an equal sharing of responsibility. People probably see you as a well-matched couple. Your key ambitions are apt to be well defined. Money can be made through your sensing what others will buy. An aesthetic talent can be profitable for either one of you. You are two people that need to have a plan. Don't try too hard to please everybody as frustration will result. Other couples might seek your wisdom, thinking you have valuable experience about love.

The two of you know how to handle your public relations. An active social life is probable. Too much solitude is not good for you. You make good allies for each other. Learn when to compromise with your partner. Neither one of you can expect to get their way all of the time.

You take romance seriously. It is important to show how much you care in making time for the relationship. Honoring what your partner needs to feel valued can be a key ingredient to your happiness.

Celebrating special occasions such as birthdays and anniversaries maintains your intimacy. You enjoy loyal and thoughtful friends. Forming successful business partnerships and strong connections to professional peers are likely to be a reality.

Saturn in the Eleventh House

A serious sense of direction is your guiding light. You are a couple that will commit to a plan if it is clearly defined. There is an ability to be inventive in business. Authority figures can appreciate the stabilizing insights you offer. You tend to respect individuals with sound reasoning powers.

Showing indifference to your partner's emotional needs is shortsighted. You must talk issues through. Being comfortable with closeness and distance might take practice. Solitude could be needed by each of you when life is very stressful. It is your way of recharging yourselves. Your friends may see you both as protective of your space. They likely appreciate your sincere loyalty.

Professional associations could be special. Your work excellence can become widely known among your peers. Attending conferences or joining groups might be a good way to network. Receiving awards is possible for both of you.

Your being together contains an atmosphere of friendship as well as romance. Receiving support for your goals makes you feel this is a special relationship. You may like the way your partner can think progressive or in conservative terms as needed. Your connection is enlivened by creating a new goal occasionally.

Uranus

Try to visualize a maverick planet orbiting on its side, whereas the other planets sit straight up and down. Uranus! This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. These are two more themes of this exciting and trend-setting entity. What is the down side to this rebel? A tendency in exhibiting a sarcastic tongue in your everyday communication. Launching sudden irresponsible actions will not make you feel like friends. Uranus can be the source of enjoying the refreshing insights you bring to your partnership. In an ideal world, you could always take each other's worries away. In reality, you can at least be a comforting ally, when you need one the most!

Pluto

Last, but not least, is a planet of mystery and intrigue, Pluto. You may get a message or two in this section about your shared psychological intensity. Pluto's sign and house point to our drives for power, passion and financial gain. A desire to get to know each other on the deepest of levels can be a Pluto theme. We must let go of a part of ourselves to be in a relationship. This scares some people and seems like a fair deal to others. What we cannot face as individuals sometimes will be brought to the surface in our interactions with a partner. Pluto's shadows center around jealousy and possessiveness. This planet teaches us that letting go and trusting one another are rewarding paths. Facing the tests of Pluto together is the breakfast of champions.

Pluto in Libra

You can show great persistence in getting much accomplished once you have made up your minds. The trick is making a decision and sticking to it. Your shared desire to be fair at all costs can allow you to see both sides of life. Negotiating with each other requires tact. You are both sensitive about making one another happy. Your joint investments can be empowering. Financial levelheadedness can be shown.

People may experience you as a complicated twosome. You can display a ferocious social nature and a tendency to suddenly want more private time together. A knack for meeting individuals with considerable influence might benefit your career. You may notice that the two of you can communicate with a flowing ease. The only real interference to your harmony is the onset of moods. The more active your life, the happier you are.

You love receiving attention from each other. Don't be too demanding. You may enjoy much of the same entertainment. Each of you will want to explore your own favorite interests.

Allowing this to occur is good for your connection.

The two of you can be a forceful duo in group activities. Your ideas will get a reaction. Some will be moved by your fierce confidence, while others may fear you. Exposing the darkness in people with limited thinking is what you can do well.

You could find it hard to talk to one another on occasion. It may be due to hurt feelings. There might be needs for space. Just be sure to talk at regular intervals. You could grow apart without really knowing it. Don't worry! It isn't as far back to feeling at home with each other as it may appear. Act like you want to be a vivacious partner, and you can draw each other close very quickly.

You will tend to resist change if it means learning new time-consuming tricks. Generally speaking, new experiences will be more received if they fit into the reality you have already created. Surprising one another in ways that show you have been paying attention always seems to be a winner--doesn't it?

Midheaven

Just as the Ascendant was described as a sign serving a special purpose, there is a sign referred to as the Midheaven, with a special mission of its own. This is the sign at the beginning of the 10th house of a chart. A palm reader can interpret the career line embedded in your hand. Think of the Midheaven or 10th house sign as a type of career line in your chart. How you two conduct business in the world and your work interests are shown here.

Midheaven in Virgo

A systematic approach to taking care of business is likely. You can be good in working together. A fine sense of details keeps you organized. Perfection can become too much of an aim in itself. You get more done when not compulsively worried. Ambitions can be realized through great dedication. Dependability is your hallmark. Helping each other increase skills can make you both more marketable. A tenaciousness to get a job done correctly is important to you. A fine sense of serving the public can open up successful doors. A pragmatic outlook enables you to see more realistic ways of making a plan come true.

Part Three: Planetary Aspects

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.

Do you sometimes wonder if it was fate or some other mysterious set of events that introduced the two of you? What attracted you the most to each other? Maybe it was a charismatic smile, the way you could talk, a physical attraction, or a shared sense of values. There is a multitude of possibilities you could name. The Nodes of the Moon are not planets. They are a celestial polarity offering clues to your connection on the soul level. Think of it as your own "psychic friends network." If this sounds too mystical or corny, just think of the Nodes as a shared frequency level in your partnership. It doesn't mean you get psychic flashes about each other. Much of this link between your minds is probably on a subconscious level. The Nodes usually play an active part in our closest relationships. The longer we are in a relationship with a particular person, the more these two energies come into our conscious awareness.

The Nodes represents a special way you can build your relationship together. They point to certain themes that must be nurtured. This helps keep weeds of discontent and frustration from growing. The Nodes are a path to solidifying your sense of closeness.

The trickster or hidden irrational tendencies will manifest through control issues. You both like to lead in your areas of expertise. Power struggles can result if you don't acknowledge each other's strengths. It's when discounting your partner's opinions that real friction can result. Sharing your opinions and feelings openly makes you closer allies. A tenacious work spirit can accomplish much together. When you support one another's most serious ambitions a genuine closeness develops. Making equal effort to put a plan into action deepens your commitment. Encouraging your partner to realize their highest potential is a wise thing to do.

Node in the Eighth House
