VERSE 1

If we had ten thousand tongues to sing
It still wouldn't be enough to say
Thank you, Lord for all the ways you've made
Our hands upraised, for your arms are open wide
We thank you Lord 'cause you're always by our side
We've come this day to bless your holy name
We sing our song, all day long
We clap our hands and give you the highest praise

Chorus

Hallelujah, hallelujah, hallelujah
Give Him the highest praise

VERSE 2

When we come into these gates oh, Lord, we pray that you'll receive our praise
Dwell in this place as we seek your face
We've made this choice to always lift our voice
To sing our song all day long
And clap our hands and give you the highest praise

CHORUS

BRIDGE

We give you the highest praise
Our hands upraised for all you gave
The highest praise
New songs we bring to you sing
The highest praise
For all you've done, gave us your only Son
The highest praise

DRIVE

We clap our hands...

END

Oh, hallelujah, oh, hallelujah, oh, hallelujah...

CHORUS

Help me, Lord

I just can't take the weight I've tried it my way

Help me, Lord

Give me the strength today I need to come back home

VERSE 1

I walked away from your love, tried to do things my own way

Disappointed and scarred, all because I strayed away

But I've learned that you're all that I need

Not because you supply all my need

But because you're my best friend indeed

CHORUS**VERSE 2**

I used to cast all my cares on you the one who first loved me

Then I walked out on my own, independence brought me suffering

By your grace I found favor in your sight

Outstretched arms held me so tight

Always safe through your power and might
