

Screen singing blues

CHORUS:

How long will I be singing to a screen, I wanna know
How long will I be singing at home
How long will I be singing to a screen, I wanna know
Because I'm just so tired of singing alone.

There used to be so many people standing next to me,
There used to be so many voices singing harmony,
There used to be so many people filling up my cup,
But then coronavirus came and shut, them, up!

CHORUS

I miss the warning glow I'd get with others in a room,
Its the best known tonic to dispel the winter gloom,
The craic, the smiles, the banter and the camaraderie,
I miss the sheer excitement of some human company!

CHORUS

With Christmas round the corner, with the coming snow and frost,
We can stay warm here on zoom whilst we keep our fingers crossed,
That we'll have the chance to sing together sometime, if not soon,
And hope that when we do, we can still sing, in, tune!
