

## Noel & Tricia Richards – Brief Bio

Noel & Tricia Richards have been writing and performing together since 1975, when they first met in Plymouth, England. Over many years, their songs have found a worldwide audience, mainly through Noel performing with his band in more than 30 countries.

In 2010, they relocated to Palma de Mallorca, Spain and so began a new season of life and a fresh direction for their music and songwriting.

After more than 30 years of writing together and Noel recording solo projects, Autumn 2013 saw the release of the first 6 track CD from Noel & Tricia Richards - 'Favourite Place'. The songs on the CD are about life, love and friendship - the things that matter most to them". They followed this up with the 'Wonderful' EP in 2015 and 'Quiet My Soul' EP in 2017.

*“The more I listen to this six-song EP, the more I become confident they'll find an audience for their music in bars and folk clubs and anywhere where people want musical warmth rather than showbiz flash.”*
