This cat is 21. When you think about how many fusion cats he learned from got their starts in big band, it should be no surprise this tyro fuses his fusion with big band flourishes. Recorded live in the studio in one pass, everyone is in their A game making this sound and feel like great records made before he was born. Tasty stuff from a cat clearly carrying on a passionate affair with is guitar. Well deserving of the Downbeat awards he's picked up to date, this cat is here to open your ears like they haven't been in quite some time. Killer stuff.
