

Phase4 Music came highly recommended by the catering director at our Country Club who had them perform many times for events at the club. I booked them for my wife's 60th birthday bash for 120 guests I'm still getting raves from our friends and family about the band, the food and the party. But let's face it, the band and the music + the people makes the party into a celebration. In our case, Phase4 definitely helped make our party a great success. We have a wedding coming up for one of our daughters and Maurice and the band will be booked to play!
