

## **Satellites and Cars**

Copyright A.J. Steel 2008

### **Verse**

Can't sit right here when  
The smoke's so thick  
I tried to speak  
But I choked on it and the world  
Kept moving around me

So I cut my hair  
Ripped off my shirt  
I played a scene for the room  
To see but the noise came back  
And drowned me  
So I dived into the wave

### **Chorus**

I will be somewhere up there  
I'll be up between the  
Satellites and the cars

### **Verse**

Are you gonna be  
The first one to come around  
When the soldiers hit the ground  
Will you hold the line with me

I've been runnin' and I've crawlin'  
Through the rubble of where I've been  
But it still feels out of reach

### **Chorus**

I will be somewhere up there  
I'll be up between the  
Satellites and the cars  
I will be somewhere up there  
I'll be up between the  
Satellites and the cars

### **Middle 8**

Come on baby step in close  
I want to show you  
Why I feel the way I feel  
So give me your hand  
And push it right through my chest  
And tell me what you feel  
Is it a whole or a half  
of a heart

**Chorus**

I will be somewhere up there

I'll be up between the

Satellites and the cars

I will be somewhere up there

I'll be up between the

Satellites and the cars
