

Dirty Rain  
Lyrics by A.J. Steel

Verse

Rain pours through our  
Open lounge room window  
Tonight there's a gun  
Held at the head of love

On the couch in our rented room  
There's a hurricane of blame  
Would you want it tamed?

Chorus

Lightning explodes in the sky above  
Spilling rain from the bitter clouds  
I watch the streets flood  
Heat from the sun might dry out this town  
But the dust remains after dirty rain

Verse

So you say that you can't weather  
Living like this  
Watching us drift away  
But I'm harder enough to stay

There's some things that are gonna stick  
In the middle of fray  
Some of them are gonna stain

Chorus

Lightning explodes in the sky above  
Spilling rain from the bitter clouds  
I watch the streets flood  
Heat from the sun might dry out this town  
But the dust remains after dirty rain
