

Flex Coaching

Duration: 1 Submission (song or acting work)

Cost: \$ 13.00

Description:

You're working on a musical piece or acting piece and don't necessarily have time for private lessons / coaching. You would love some feedback, ways to improve, coaching to how to nail that next performance or audition. How do you go about getting your needs met while also balancing your schedule? Here's the answer:

1. Purchase the Flex Coaching Session - you will receive a link where to send your submissions
2. Submit the piece you are currently working on
3. The submission should include a video / audio recording to receive the best possible feedback
4. Describe what it is you're working towards
5. I will provide feedback on how to proceed....what you're doing well and should keep doing, some ways in which you can improve / strengthen your performance.

* Please note, this is not intended for a beginner. Beginners should definitely be receiving more hands on instruction, so you know exactly what it is you're doing is correct and that you're developing healthy habits. This is for someone who is more advanced / experienced and looking for additional coaching and instruction.
