

Majesty of Rock

Majesty of Rock is a mega talented group of south Florida musicians who banded together for the express purpose of faithfully re-creating the look and sounds of the two American super groups: **Journey** and **Styx**. Fronted by the amazing John D'Agostino, the band boasts the exceptional musical talents of five highly experienced musicians who not only capture every nuance of Journey in their iconic Steve Perry days, but also the vocal essence of Dennis DeYoung and Tommy Shaw of Styx.

Chain Reaction pays homage to Journey's best years (1977-1998) when Steve Perry fronted the band. In April, 2017, Journey was finally inducted into the Rock and Roll Hall of Fame. **Chain Reaction** is very passionate about making people feel like they're at an actual Journey concert.

Forever Styx strives to re-create the look and sound of Styx, one of the most successful bands that produced hits in three different decades. Showcasing both the tremendous musicianship and vocal harmonies that Styx is known for, **Forever Styx** will bring you back to the top billboard days of this unique sounding group.

Majesty of Rock can perform separately as **Chain Reaction**, the ultimate Journey reverence band, or as **Forever Styx**. Better yet, book both and feel the power. Any way you want it, we invite you to take a journey with us back to that magical time when arena rock was at its peak.
