

## **Make A Wish**

Remember the day we left  
A kiss on the cheek of Los Angeles  
Sometimes it happens last  
We know our minds aren't so color fast  
Driving an old green bug  
Just the road and wanderlust  
At first we felt so free  
Nowhere else we had to be

Oh oh make a wish  
Oh oh ....a wish

The journey came with struggles  
Thought we left behind our troubles  
But as the story goes  
The space between us would start to grow  
Nothing went our way, we both grew jaded  
Then the wish faded

Oh oh make a wish  
Oh oh ....a wish

Goodbye Las Vegas, the foolish and the gritty  
Maybe we'll find it in New York City

Remember the day we left  
A kiss on the cheek of Los Angeles
