- 13 Sugar Coated Love—5:22 (Jay Miller)

## One Drunken Kiss

NEAL & THE VIPERS released their 9th album *One Drunken Kiss* on June 1, 2018. *One Drunken Kiss* is a compilation of several of their original and cover songs that are a mix of blues, swing all American Roots Music. Below are just a few quotes from some of their supporters who listened to *One Drunken Kiss*.

*"Neal Vitullo is one of New England's top guitarists, touring relentlessly with his band The Vipers. I highly recommend his excellent new album "One Drunken Kiss", for fans of straight ahead, unvarnished roots rock and roll."* — Tom Guerra, Vintage Guitar Magazine

*"One Drunken Kiss, This is THAT record you've been waiting for. While many blues performers have come and gone over the past 40 plus years, it's refreshing to see that the star of Neal and The Vipers shines brighter than ever as evidenced by their latest release, "One Drunken Kiss". Engineered and produced by Jack Gauthier, "One Drunken Kiss" artfully showcases the diverse range of NEAL & THE VIPERS with blues, American Roots Music. In a genre filled with many able and capable performers around the world, "One Drunken Kiss" by NEAL & THE VIPERS rises to the top and promises to be one of the best blues-rock releases of 2018."*

— Fritz Homans, Host - "The Blues Station" on WERU-FM

*"This album is a great representation of what NEAL & THE VIPERS are all about. Their sound is like no other artist that you will hear, especially the unique telecaster guitar tone that can only resonate from Neal's vintage amps."* — AJ Wachtel, Blues Music Magazine

*"35 years strong for the Vipers and they put out their best album. And the best blues roots LP of 2018. Don't make the mistake of thinking you know this band because you caught a show years ago. I've said this before, Neal's greatest feat as an artist is that he is somehow year after year the most improved player that I know; and that's quite a statement if you know how good he's been for decades."*

— Terry Ward, Record Producer
