

THIEVES

Thieves, they take all that you have
Thieves, they break everything you own
Thieves, come only when you're alone
Thieves, seem to know when you've already lost

I have fallen in with the shadows of the night
Somewhere along this troubled road I swore that I'd put up a fight
How these bandits control with their painted eyes
And I get lost inside

Thieves, stole what was closest to me
Thieves, wrote away every whisper I need
I feel nothing but fear inside of me
Thieves, will find your weakness and bring you to your knees

I have fallen in with the shadows of the night
Somewhere along this troubled road I swore that I'd put up a fight

THIEVES

*How these bandits control with their painted eyes
And I get lost inside*

*I don't know how I'll survive
Cause their power in my mind has wrestled me to the ground
Stripped down and bare, hanging on by my toes
Oh how I let them take control*

*I have fallen in with the shadows of the night
Somewhere along this troubled road I swore
that I'd put up a fight
How these bandits control with their painted eyes
And I get lost inside
I get lost inside*
