

## JESUS IN RIO

Rio is jamming  
but my mind is clear  
you`re not there  
want to surrender  
but you`re on your way  
will you stay  
One more coin will predict  
“crossing the great water is favourable”

I want to cross over together with you  
I want to cross over together with you

in my left hand  
I hold the key  
to your door  
down by the water  
I walk and I wait on that restless shore  
is it you that I hear  
or is it just that feeling  
that I want you even more

I want to cross over together with you  
I want to cross over together with you

I`m staring in the water  
the wind blows away an image of my face  
I`m coming now  
if you say the words  
that`s all I need to know

I want to cross over together with you  
I want to cross over together with you  
like the sound of Gilberto comes inn  
and reminds me of Jesus in Rio

I`ll remember  
I`ll remember
