

Can you hear me

Without a sound
Without a sound
You came to me
When the wide water opened her secrets
Without a word
Without a word
You gave me life
When the stars couldn't reach through the clouds

Can you hear me
I will be meeting the dawn just for you
Can you hear me
I will be meeting the dawn just for you

We're not alone
We're not alone
I hope we can keep all our memories bright
As this moment
We're in the sun
But i don't need to cover my face
From the light that it brings to me

Can you hear me
I will be meeting the dawn just for you
Can you hear me
I will be meeting the dawn just for you

Out of the light
I hope we can dream on

Can you hear me
I will be meeting the dawn just for you
Can you hear me
I will be meeting the dawn just for you
