

A DEATH IN BLOOM

Electronic Industrial Rock

A Death in Bloom is a new Industrial / Electronic Rock act from Northern California. Their stage show is technically intricate with a highly synchronized lighting and class-3 variance laser performance. Sequenced synthesizers plus heavy guitars and live acoustic drums show their roots in Nine Inch Nails, KMFDM, Marilyn Manson, Front Line Assembly and other original industrial artists. Additionally their pop-style song formatting and catchy lyrics make A Death in Bloom a strong new act on the revitalized industrial scene.

A Death In Bloom released their first album *Pretty Broken* on June 29, 2018.

Elisa Bloom: Lead Vocals, Keys
Tate Bloom: Guitar, Vocals, Programming
Kirk Janowiak: Drums
Gordon Hanley: Bass
