

Down

Lost and found
Fool's gold
The monster is getting loud
Trapped inside
It's freezing cold
The monster is getting out

If you could see you could see just what I see
When I'm going down, down, down
Going down
Down d-down down down
Down d-down down down
You'll just leave me when I'm down

Lashing out
No one's listening
Can't stop me I'm falling again
It's safe here
On my own
Can't stop me from playing pretend

If you could see you could see just what I see
When I'm going down, down, down
Going down
Down d-down down down
Down d-down down down
You'll just leave me when I'm down

The voices in my head are sounds they hear the screams are stronger
the fear is growing deeper it's dark in here it's cold in here it's nice in
here there's no one here there's no one here there's no one here
the monster's here

Down, down, down
Going down
Down d-down down down
Down d-down down down
You'll just leave me when I'm down

Down d-down down down
Down d-down down down
You'll just leave me when I'm down
