

The words felt foreign and heavy in my mouth
You know there's more than what we say and we let out

I asked you then if we were gonna change
I asked you then if we could stay the same

You own me you own me I can't believe
You showed me you showed me without you I can't see

Remember you told me that I would be enough
When did you fool me into thinking this was love

You asked me then if I could just change
You asked me then why I want to stay the same

You own me you own me I can't believe
You showed me you showed me without you I can't see
I can't see

(I can't see) I am blind without you
(I can't see) I am blind without you I just can't move
(I can't see) Can't find myself in all this new

You own me you own me I can't believe
You showed me you showed me without you I can't see
You own me you own me I can't believe
You showed me you showed me without you I can't see

(Remember you told me) Without you I can't see
(When did you fool me) Without you I can't see
(Remember you told me) Without you I can't see
(When did you fool me) Without you I can't see
