

Sunshine, it reminds me of your eyes  
They're mine, no one else can see inside  
Truth you'll find, you're the one thing that can make me cry  
That's fine, because I know we'll be alright

You are the one for me  
You are the sun to me  
You are more than me  
You're more than I can be

Moonlight, makes me wanna dance through the night  
But why? am i searching for peace of mind?  
I find, the steps don't feel right until you're by my side  
That's fine, because I know we'll be alright

You are the one for me  
You are the sun to me  
You are more than me  
You're more than I can be

Sunshine, sunshine, sunshine, sunshine

The stars, they don't seem quite so far  
When you're holding me it's not so hard to believe  
In the heavens above and lately you're all that i'm dreaming of  
I know, I know I've found my love

You are the one for me  
You are the sun to me  
You are more than me  
You're more than I can be  
You are the one for me  
You are the sun to me  
You are more than me  
You're more than I can be  
You're more than I can be (sunshine)  
you're more than I can be (sunshine)  
You're more than I can be (sunshine)  
You're more than I can be (sunshine)  
You're more than I can be
