

Scary creatures came to play  
You scared them all away  
If only I saw what you really were  
You were the worst the worst the most peculiar

Your empty soul found me in my darkest darkest time  
If only I had listened when they said that you were my

Psychopathic soulmate you  
You are my psychopathic soulmate  
You are you are my  
Psychopathic soulmate  
You are you are my

Voices they were in my bed  
They were never in my head  
How could I not see that it was all along  
You whispered pretty baby just play along

Your empty soul found me in my darkest darkest time  
If only I had listened when they said that you were my

Psychopathic soulmate you  
You are my psychopathic soulmate  
You are you are my  
Psychopathic soulmate  
You are you are my

You drive me  
You're wild to me  
I'm lonely  
I'm craving

Your empty soul found me in my darkest darkest time  
If only I had listened when they said that you were my

Psychopathic soulmate you  
You are my psychopathic soulmate  
You are you are my  
Psychopathic soulmate  
You are you are my  
You are you are my
