

## What If Lyrics

What if I call  
What if we talked  
What if we crawled  
What if we walked  
Why did I run  
Why didn't you chase  
Why did I leave  
Why did you walk  
Why did you walk away

I never said no thought I was right never felt whole you could've  
asked why no matter how hard I wanted to try stuck in the dark I  
needed the light why did you walk away  
Why did you walk away

What if I break  
What if you gave  
What if we stopped  
What if we stayed  
Why did I fall  
Why did you take  
Why did I lose  
Why did you walk  
Why did you walk away

I never said no thought I was right never felt whole you could've  
asked why no matter how hard I wanted to try stuck in the dark I  
needed the light why did you walk away  
Why did you walk away

Looking back I'm not ashamed I'm not sorry for what we've done  
and that's alright with me

What if I cared  
What have we found  
What if you're there  
What if we drown

I never said no thought I was right never felt whole you could've  
asked why no matter how hard I wanted to try stuck in the dark I  
needed the light why did you walk away  
Why did you walk away (4x)
