

Life creeps in, molds us & makes us who we are. Soul Lily music is exactly that, the honest & emotional expression of singer, songwriter Tracy Larson's life experiences. For several years, Soul Lily existed as a duo collaboration between Tracy (vocals, acoustic guitar) & Eddie Clifford (lead electric guitar) – all along Tracy continued to write & put music to her life stories. Finally, at the prompting of friends & loyal fans, Tracy & Eddie decided to go on full band mode. The concern had always been finding like-minded musicians who understand what Soul Lily music was all about, but Tracy & Eddie stepped out. Enter Mike Kelton (drums) & Carlos Pineda (bass), and suddenly the groove factor soared to the heavens. The culmination of the four of them produces a groovy, funky, bluesy, folky, sometimes southern and/or county rock sound that's very appealing. It is obviously these musicians are all connected through the music & it resonates with the audience. This music is definitely soulful.
