I BELIEVE IN YOU. US. ME

Would they still be alive today, if they knew that they existed for a reason?

"OHIO'S YOUTH WILL OVERCOME SI!"

Four youth will commit suicide today. One youth every five hours. (American Foundation for Suicide)

Females attempt suicide three times as often as males (Center for Disease Control).

Suicide among males is four times higher than among females. Males death represent 79% of all US suicides. (CDC)

Suicide is the 2nd leading cause of death for ages 15-34. (American Foundation for Suicide)

The highest suicide rates in the US are among Whites, American Indians, and Alaska Natives. (CDC).

Teens don't attempt suicide for attention, rather they attempt it because they are in emotional pain, feel hopeless, and don't believe there can be any resolution to their problems. (Klonsky, 2014)

Average per suicide death cost the state of Ohio + taxpayers \$1,000,000. At least five youth die a day and each death results in \$1,000,000 + in medical insurance damage. \$5,000,000 a day is spent on cleaning up the aftermath of suicide.
