

## **The Lovelock Dilemma**

© Jim Ocean

What are we gonna do about James Lovelock?  
He says that the earth is alive  
He says that the earth is gonna weed us  
He says that the earth will survive us...

Should we burn his books  
Put a gag in his mouth  
Tie him up like a crook  
Send him way down south  
Put him out on the ice  
As it's melting away  
Melting away...

What are we gonna do about James Lovelock?  
He says that the earth will abide  
He says that the earth is gonna bleed us  
He says that the earth will do just fine  
Without us...

Should we call him a name  
Should we call him a flake  
Take a match and a flame  
Say he's made a mistake  
Gallileo was jailed  
And nearly burned at the stake  
Say you've made a mistake  
Oh James....

Oh Gaia!  
Oh Gaia!

What are we gonna do about James Lovelock?  
He says that the earth is alive  
He says that the earth...  
He says that the earth is alive.
