

# Baghdad

Music & Lyrics | George Gad

## Verse 1

You have to stand up and fight for your land  
You have to struggle and bleed for your rights  
Glory awaits you and death nearby  
But in this madness, pride survives

## Bridge

History is written by the blood of proud men  
People who will read it, they won't understand  
But as the hour reaches and they'll be threatened again  
Your deeds will come to their mind

## Chorus

Fight for your city  
Slavery isn't pretty  
God won't mind for you

## Verse 2

If they catch you don't say but one thing  
You love your country, you don't serve a king  
Some may break under the blade  
But you will face it until the end
