

Morning Hope

It's a rare day gone by
If you don't question why
With every sunrise
The shining in your eyes
The dawning, every morning
Gives hope

Off that slippery slope
Not the end of your rope
That welcome surprise
The bright'ning of the sky
The dawning, every morning
Gives hope

First, hint, of, light
Good, bye, long, night

The dawning, every morning
of hope

It's a rare day gone by
If you don't question why
A day made for sighs
To clear away the lies

The dawning, every morning
is hope

First, hint, of, light
Good, bye, long, night
