

I Wonder

I wonder why
I wonder how
things that go up
may not come down
left may be right
right may be wrong
tall may be short
short's still too long

It'll make you think
It'll make you blink
It'll make you drink
But at least you're filled with wonder

I wonder where
I wonder when
Is this for now?
Or is now then?
Find may be lose
Lose may be win
You might sell out
Out may be in

It'll make you doubt
look for a way out
make you want to shout
but at least you've got to wonder

But a fact's a fact
we don't buy the act
better think 'bout that

Slow may be fast
real fast and loose
weak as in power
just give it juice
bits and pieces
peace is all right
high could be lit-up
up's down tonight

It'll make you dread
make you stay in bed
get inside your head

It'll make you scheme
get into your dreams
make you want to scream

It'll make you weak
think about defeat
maybe make you freak
But at least you're filled with wonder
