

We're All Together

(By Jim Gaff)

When it seems that your running against the wind
When life's little curves well, don't seem to end
When you think it's down-right bad and it's getting worse
So bad and it hurts... We are all together... you and me

When your running scared wondering when it'll end
When it seems surreal and hard to comprehend
If you feel like you're the only one whose feelin' down
Just look around

(Chorus)

**We're all together... you and me
It'll all get better... just wait and see
Just close your eyes and listen to this song... and be strong
Let's bring the world together... you and me
We are all together... you and me**

The world may seem divided and hard to understand
If we could find a way to unite and make amends
Look among you 'all and just try give a smile
And be friends

(Chorus) (Lead)

(Bridge)

*I hope these words I share in this song
Can help us all get along*

(Chorus) (Chorus) (Chorus)
