

## **9. I JUST WANT YOU TO TELL ME**

Don't know why I always make you cry  
And no matter how I try  
I can't choose the words to say  
And you don't show me how you feel  
My heart is there to steal  
Only you can find the way  
Tonight  
We can be more than this tonight  
We can hold on to this tonight  
While we still have the time  
I just want you to tell me that you love me

Don't know why I never seem to learn  
As I watch the pages turn  
How to read between the lines  
And you still hide yourself away  
From the feelings you betray  
And the friends you leave behind  
Tonight  
We can be more than this tonight  
We can hold on to this tonight  
While we still have the time  
I just want you to tell me that you love me

Lost without  
All about you  
That's the place I long to be  
Here forever  
Wonder whether you will understand

Don't know why I always make you cry  
And no matter how I try  
I can't choose the words to say  
Tonight  
We can be more than this tonight  
We can  
While we still have the time  
I just want you to tell me that you love me
