

SET ME FREE

Late at night when all the stars are bright Do you see
the one that you love?

Here I am

I hope you'll understand

To be a friend is just not enough

So it's 1 for the money

2 for the show

3 to get steady and go, go, go

I just can't take it waiting in line

I wanna be the one and I'm gonna change your mind

Set me free

Come on baby let me be

*I've been here every day 'til the dead of night Could it
be this is love am I wrong or right now? Set me free*

Come on baby can't you see

*You're the one that I need, I've been looking for Only
you have the key open up the door and*

Set me free

All alone

A house is not a home

No-one here, nothing to do

I want to share but you don't seem to care You just
don't see all I want is you
